

## AIRLINE CENTRAL LODGE 2323 I.A.M.A.W.

Technical Operations, Logistics & Supply Shop Committee

### ACM Update

2016-11-07

Brothers and Sisters,

Aircraft fin 632 was contracted out to Avianor in YMX on November 1, 2016 without our knowledge or agreement. Air Canada did not inform us until after the aircraft was in YMX. The provisions of Article 20.07 were not followed. We have grieved this violation and requested the employer cease this practice immediately and indefinitely.

Moving forward, under agreement with the Shop Committee, the B767 Get Well program will include a pre-planned overtime process. This voluntary overtime process will allow our members to sign up for these maintenance visits well in advance.

If you have any further questions, please contact the Shop Committee office directly.

In, solidarity,

David Freeman

Joe Veltri
