Brothers and Sisters,

January 24, 2012

What are you worth?

Is being sent home early with pay making up for everything that has been taken?

How about that pizza?

Brothers and Sisters we are in negotiations. We as a Union need to be working on getting back what was taken. We need you to understand that eating company pizza and getting let go an hour early is not going to help achieve our goals.

We are disappointed to see that some of you believe the company is exhibiting benevolence and charity. We will ask you to re-think some of the choices that you will be presented in the near future.

Please guide yourselves accordingly,

In Solidarity,

Joe D'Ermo
