

AIRLINE CENTRAL LODGE 2323 I.A.M.A.W.

Technical Operations, Logistics & Supply Shop Committee

Attention All Members

January 31, 2013

Please take the time to ensure that your work environment is safe and that the necessary safety protocols are being followed. We should all be aware of the potential of “Human Factors” and how recognizing them can often go a long way to preventing accidents. Reference material, such as a link to the “Dirty Dozen,” can be found in your online profile under My ACM/Health and Safety.

Please remember to follow all Standard Operating Procedures, regulatory documents, and Safety Policies. It is vitally important that our members carry out their duties safely and go home after their shift.

In Solidarity,

Dan Adams

David Freeman
