Tentative Agreement Highlights

The proposed agreement would cover the period between April 1, 2026, and March 31, 2030

After intense negotiations, your IAM Union Bargaining Committee has reached an industry-leading tentative agreement with Air Canada.

This tentative agreement is one of the most significant agreements ever reached in Canadian aviation. Coming out of a 10-year contract, your Negotiations Committee and Support Committees worked tirelessly to secure industry-leading improvements for our members.

This document reflects the highlights of the tentative agreement, including the strongest wage increases ever seen in the Canadian airline industry, along with significant gains across all work groups.

Most importantly, this tentative agreement reflects the strength, unity and solidarity of our membership. Every show of support helped strengthen our position at the bargaining table.

Nothing happens without you. Thank you for standing together, staying engaged and showing the power of solidarity throughout this process. We look forward to sharing more details and providing members with the opportunity to review the agreement and make your voice heard.

The following priorities have been identified by our 11,500+ hardworking IAM members, directly from member surveys and identified subcommittee issues.

Dear Dave,

As discussed during the 2026 round of collective bargaining, the parties are transitioning away from the current endorsement premium process (based on number of endorsements) comprised in article 4.04.05.

The parties have instead adopted a percentage-based premium attached to hourly rate of pay that will increase based on completed years of active Service since ACA qualification was achieved

As a result, effective date of ratification, article 4.04.05 is removed from the collective agreement and replaced with the following grid.

Issue Number: VPP

Version: #1

Memorandum of Agreement Between Air Canada and the International Association of Machinists and Aerospace Workers

Subject: Vacation Purchase Plan (VPP)

The parties have discussed and agreed to the following;

The Company will make available a VPP, for the duration of the 2026-2030 Collective Agreement.

The parties agree that, provided operational and organization requirements are met eligible employees will be offered the opportunity to purchase an additional forty (40) or eighty (80) hours of extra vacation.–Each application is subject to approval by the Branch Head of the applicants work location.

Employees who wish to participate must apply, through the applicable online process before September 15th of the year during which they wish to purchase and use VPP. Employees may elect to have these hours withdrawn out of their timebank in lieu of the 26 installments. The withdrawal of hours will be deducted with their first pay in January.

Applications will be reviewed and if approved, employees will be notified no later than 14 calendar days prior to the vacation bid of the year preceding their VPP request.

Approved VPP liability will be planned and bid in accordance with article 13.12.

The overall cost of the purchase of forty (40) hours vacation is 2% of the employee's annual basic pay in effect on December 1st of the year preceding. This amount will be deducted from the employee's gross pay, starting with their first pay in January, in twenty-five (25) equal installments and one (1) payment of the remaining amount outstanding.

The overall cost of the purchase of eighty (80) hours vacation is 4% of the employee's annual basic pay in effect on December 1st of the year preceding. This amount will be deducted from the employee's gross pay, starting with their first pay in January, in twenty-five (25) equal installments and one (1) payment of the remaining amount outstanding.

Vacation bidding will take place first with the GHO bid commencing upon the conclusion of the vacation bid, followed by the VPP Bid. No employee can bid the second week of approved VPP until everyone has had the ability to bid their first week of approved VPP.

If applicable, should a statutory holiday fall during an employee's week of VPP, the statutory holiday will be taken as a day in lieu immediately following the VPP week unless otherwise mutually agreed to locally.

Should an employee's status change due to layoff/termination this would result in a full reimbursement or refund on the employee's final pay.

The VPP program in its entirety will not be subject to the grievance process, including, but not limited to, the determination of operational and organization requirements and the number of available slots. The sole item subject to the grievance process will be the allocation of available slots in seniority order.

Note 1: If there are multiple applicants within a department, approvals will be granted in seniority order.

Note 2: Approved vacation purchased through this program will be available to be used during open slots in the vacation roster within the same vacation year.

Note 3: Any dispute regarding denial of VPP due to operational requirements will be reviewed between the parties at Headquarters level.

This agreement is made without precedent or prejudice to any other position the parties may take in the future.
